SUPPLEMENTAL SEQUENCE AMENDMENT

Sir or Madam:

Pursuant to 37 C.F.R. § 1.821 *et seq.*, Applicants submit the following
Sequence Listing and corresponding computer readable form for insertion into the
Specification.

REMARKS

Pursuant to the requirements of 37 C.F.R. §§1.821-1.825, Applicants amend the Sequence Listing by submitting this Sequence Amendment together with substitute sheets for the Sequence Listing and a substitute sequence listing in computer readable form ("CRF"). Specifically, SEQ ID No. 1 has been amended so that: the nucleic acids at position 34-36 have been amended from "cgc" to "cac"; SEQ. ID. No. 3 has been amended so that the amino acid at position 42 has been amended from "Tyr" to "Trp"; the amino acid at position 69 has been amended from "Tyr" to "Trp"; the amino acid at position 346 has been amended from "Met" to "Thr"; and the amino acid at position 378 has been amended from "Leu" to "Pro". In view of these amendments to the Sequence Listing, the nucleic acid and amino acid sequences disclosed in the Specification, claims and drawings may be found in CRF in file "Amended Sequence List.txt" and in the "paper copy", which are filed with this Sequence Amendment.

Applicants hereby certify that the information recorded in attached CRF, filed as file "Amended Sequence List.txt", is identical to the "paper copy" of the Sequence Listing submitted together with this Sequence Amendment. The material presented in CRF and in the "paper copy" is not new matter because it presents sequences that are identical to those disclosed in the priority documents.

Applicants believe that the requirements of 37 C.F.R. §§1.821-1.825 have been met.

Respectfully submitted,
THE WEBB LAW FIRM
